

ENVIRONMENTAL AND PREVENTION OF MAJOR ACCIDENTS POLICY

Constitutes determination of the management of **DOURECA – Produtos Plásticos, Lda.**, the constant reinforcement of the environment and safety culture associated with the injection and electrolytic metallization processes of plastics, so it is proposed to make available the resources (human, technological and financial) needed to:

- √ - **Establish, implement and maintain a Major Accident Prevention and Safety Management System** in order to prevent the occurrence of serious accidents associated with the handling and storage of hazardous substances in the establishment;
- √ - **Establish, implement and maintain an Environmental Management System**, which allows to keep under control the significant environmental aspects associated with its activities, products and services;
- √ - **Ensure compliance with the legislation and other requirements applicable;**
- √ - **Ensure the control of its activities, in particular those relating to dangerous substances**, in order to eliminate or minimize the risks of loss of containment of dangerous substances and their effects on human health and the environment, both within their establishment and in the its surroundings;
- √ - **Ensure the protection of the environment and the prevention of pollution;**
- √ - **Minimize environmental and safety impacts** arising from change in its activities, products, services and installations, throughout the life cycle, in particular the reduction of the consumption of natural resources and the minimization of quantity and hazardousness of waste generated, assuring them a proper final destination;
- √ - **Protect and maintain equipment** to ensure the appropriate security conditions in handling of dangerous substances;
- √ - **Protect human health and the environment**, through emergency response arrangements that may constitute a potential major accident, in order to minimize its consequences;
- √ - **Promote the formation and information** of all our employees, service providers and stakeholders about the risks and environmental impacts associated to the activities they develop. This will sensitize them for compliance with safety and environmental standards;
- √ - **Promote participation, communication, responsibility and the involvement of employees** in relation to the environment, safety and major accident prevention;
- √ - **Define goals and targets for environment and prevention of major accidents**, implemented and followed in a management system **to promote continuous improvement.**

Environment and major accident prevention policy is assumed by **DOURECA** with **LOYALTY, ACCURACY AND COMMITMENT**, and it is been shared with all employees and people who work for you or on your behalf and is available to the general public.

December 2017

The Management,
